

DESCRIPTION OF THE FILE
Personal Data Act (523/1999) section 10

Date of drafting: 11.5.2007

Use an enclosure if necessary.

<p>1. Controller</p>	<p>Name Nokia Corporation</p> <hr/> <p>Contact information (address, tel. etc...) Keilalahdentie 4, 02150 ESPOO, Finland</p>
<p>2. The person in charge and/or contact person</p>	<p>Name Jarmo Jokinen</p> <hr/> <p>Contact information (address, tel. etc...) Nokia Corporation, Keilalahdentie 4, 02150 ESPOO, Finland</p>
<p>3. Name of the register (should describe the content)</p>	<p>WidSets user database</p>
<p>4. The purpose for processing the personal data / the purpose for the use of a register (If the processing of personal data is outsourced [external service providers are used for the processing], a mention about it can be included to this point)</p>	<p>Provision of products and services In order to provide you with the products and services you have requested the processing of your personal data may be needed. In case we need to invoice you for those products and services, your personal data will be used also for that purpose.</p> <p>Development and improvement of products and services Nokia thrives to continuously improve and develop its products and services as well as to create new ones to better meet our customer's requirements. Sometimes it is necessary to use your personal data for that purpose.</p> <p>Communicating with you We may use your personal data to communicate with you. We may for example wish to contact you in order to conduct market research, to inform you about our products and services or changes therein as well as to send you such information as we may be required to send. Certain Nokia services provide you with the possibility to manage your preferences in terms of how you want us to communicate with you. Your personal data will also be processed in connection with your communication with us.</p> <p>Marketing of products and services Your personal data may be used also to market our products and services to you. Our websites and other services we provide may be used for marketing of other companies' products and services, with whom Nokia has agreed of such usage. However, Nokia does not disclose your personal data to such companies or any other company for marketing purposes without your prior consent.</p> <p>Personalizing our offering We want to provide you with such an offering that would meet your personal demands.</p>

	<p>Therefore we may process your personal data in order to personalize our products and services to you. This may include for example customizing our websites and other services by obtaining and combining information relating to your use of other Nokia's products and services.</p> <p>Statistical purposes We may also use your personal data for statistical purposes.</p> <p>Compliance with law and regulatory request, We process personal data also in order to comply with mandatory legal requirements that Nokia must comply with, such as accounting and reporting obligations.</p> <p>Protection of vital interests of data subjects Personal data may be processed to the extent required for protection of vital interests of data subject of whom personal data we possess.</p>

<p>5. Content of the register</p> <p>(For instance: name, address and telephone number of the data subject)</p>	<p>The personal data is collected either in connection with your use of Nokia's products or services or it is information that you have provided us with, for example in connection with the registering to a Nokia service, ordering a product or service of Nokia, participating in a contest or other such marketing activity or feedback or other such information you have provided us with.</p>
<p>6. Regular sources of information *</p>	<p>Your registration form and your use of Nokia products and services.</p>

<p>(Which data is received, by whom and on what ground. For instance: consent or provision of a law)</p>	
<p>7. Regular destinations of disclosed data and whether the data is transferred to countries outside the the European Union or the European Economic Area</p>	<p>Our products and services may be provided by using resources located in various countries throughout the world. Therefore your personal data may be transferred outside the country where you use the service or otherwise provide us with your personal data.</p> <p>Inssofar you are located within EU/EEA borders, your personal data may be transferred also outside EU/EEA. In such cases Nokia uses appropriate means to provide adequate level of data protection to your personal data. Such measures include for example the use of Safe Harbour registration for US based companies and the use of EC model clauses as defined in the European Commissions decisions thereto.</p>
<p>8. The principles how the data file/register is secured.</p>	<p>A. Manual register (place of storage and the methods of protection)</p> <p>Not applicable.</p> <p>B. Data register/ADP register (principles for the right to use a register, monitoring of the use and actual protection of hardware)</p> <p>While there are always risks associated with providing personal data, whether in person, by phone or via the internet or other technologies, and no system of technology is completely safe or "tamper"/"hacker" proof, Nokia has endeavored to take reasonable precautions which are appropriate to the nature of the information to prevent and minimize such risks in connection with your use of our products and services.</p> <p>We have endeavored to take appropriate measures, such as the use of firewalls, secure server facilities, encryption, implementing of proper access rights management systems and processes, careful selection of processors and such technically and commercially reasonable measures to provide adequate protection for your personal data against unauthorized use or disclosure of your personal data. We also take appropriate back-up copies and use other such means to prevent the accidental damage or destruction to your personal data and to ensure that our services are functioning properly. such as the one available through "Secure Sockets Layer" ("SSL"), to protect the confidentiality and security of online transactions.</p> <p>Nokia uses encryption technology when collecting financial personal data such as credit card information. If this site supports on-line transactions, it will use an industry standard security measure,</p>

* Section 10 of the Personal Data Act does not require to make a note of this information, but it's recommendable to do so, regarding the right of access of the data subjects. Furthermore, it also describes the content of the register.
